"Lulu"

(Betty Smith & Jon Hawkins, owners)

Description

Lulu is a very well-behaved, mellow, three-year old Boxer mix. Our companion since she was eight weeks old, Lulu is a cherished member of our family. Lulu is quiet, leash-and house-trained, gets along well with other animals and humans and is accustomed to apartment life. If you have any questions about our dog, please ask.

Training

Denver Dumb Friends League obedience classes, 1997. Lulu is fully house-trained and obeys voice commands. Since she was raised in an apartment, Lulu is accustomed to the average household noises and only barks when she is alerting us to a stranger at the door.

Health & Grooming

Lulu is spayed, which benefits both her behavior and her health. She is kept up-to-date on all vaccinations and receives regular health exams at Healthy Pets Veterinary Hospital. Lulu is a short-haired dog who doesn't shed excessively, and we bathe and groom her regularly.

Activities

We walk Lulu twice daily. Two days per week, Lulu goes to doggy day-care, where she gets plenty of play and interaction with many other dogs. She also goes with us to Betty's parents' ranch on the weekends, where she has plenty of space to run and another dog to play with, as well.

Doug Grey, previous landlord: _____

Please also see attached letters of recommendation and other documentation.

We would be delighted for you to visit with Lulu in our current home, and to check in with us after moving to our new residence to see how she is adjusting to her new surroundings. Thank you for considering us as members of your community!

Sample Cat Resume

"Spud"

(Betty Smith & Jon Hawkins, owners)

Description

Spud is a friendly, well-behaved cat who was raised in an apartment and is accustomed to only living indoors. He is an eight-year old male Himalayan who enjoys napping in the sun and watching the birds outside the windows. Spud is fully litter box trained, and we clean his litter box twice daily, disposing of the litter in a sealed plastic bag. We provide him with several scratching posts, which he uses regularly, and a large basket of toys to amuse himself. We have had Spud since he was a six-month old kitten, and he is a cherished member of our family. If you have any questions about our cat, please ask.

Health & Grooming

Spud is neutered, which benefits both his behavior and his health. Since he never goes outdoors, fleas are not a problem. Because Spud is a long-haired cat, we brush him often and never allow his fur to become matted. He is kept up-to-date on all vaccinations and receives regular health exams at Healthy Pets Veterinary Hospital.
